

SYED ALI HUSSAIN

Full Stack Developer & AI Engineer

Islamabad, Pakistan | syedalali6160@gmail.com | linkedin.com/in/syed-ali-hussain-93a24430a | github.com/Alihussain121472

PROFESSIONAL SUMMARY

Full Stack Developer and AI Engineer who enjoys turning ideas into practical web applications and AI tools. I work mainly with Python, Django, Flask, APIs, databases, and LLMs, and I like building products that automate repetitive work or make everyday tasks easier. My projects include SaaS-style platforms, AI assistants, news tools, and SEO automation.

WORK EXPERIENCE

AI & Full Stack Developer

Independent Projects & Product Development

| Islamabad, Pakistan

- Build full-stack web applications and AI-powered tools with Python, Django, Flask, APIs, databases, and modern frontend technologies.
- Connect LLMs to real applications for content generation, summarization, automation, and information processing.
- Handle backend APIs, database design, scheduled jobs, and application workflows from the initial idea through implementation.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL, HTML, CSS
Frameworks	Django, Flask, Tailwind CSS
AI & APIs	LLM Integration, Llama 3.3, Gemini, Prompt Engineering, API Integration
Databases	PostgreSQL, Supabase, SQLite
Tools	Git, GitHub, Render, Linux, APScheduler
Development	REST APIs, SaaS Development, Automation

KEY PROJECTS

Nova Brief — AI News & Student Program Tracking Platform

Full Stack Developer | Built a web application that tracks student programs and provides a daily technology news feed. Integrated Llama 3.3 through Groq API to summarize news and prepare scheduled social media content. Used APScheduler for daily emails and hourly database updates. Tech: Python, Flask, Supabase/PostgreSQL, Llama 3.3, Groq API, Tailwind CSS.

Khidmat AI — AI-Powered Public Assistance Application

Creator & Lead Developer | Built an application that uses AI to help people with everyday problems. Designed the interface and connected the backend routing and API integrations needed to process user requests. Tech: Python, Django, API Integration.

Autonomous SEO Agent

Developer | Created an automation workflow for SEO work such as keyword research, content structuring, and AI-assisted optimization, reducing repetitive manual tasks. Tech: Python, LLM Prompting.

CERTIFICATIONS & COURSES

- Introduction to Modern AI — Cisco Networking Academy | 28 Jan 2026
- AI-Enhanced Teaching — AI-Explain You Science (AIEYS) | 11 Apr 2026
- CS50's Introduction to Programming with Python — Harvard University | Course by David J. Malan

EDUCATION

Bachelor of Science in Artificial Intelligence (BSAI)

SZABIST University, Islamabad
Expected Graduation: 2029

Focus Areas

Artificial Intelligence • Machine Learning • Software Development
